VIRTUALWORKS LAB INTERNSHIP

Data Analytics

An Internship Presentation Report

INTERNSHIP DURATION

08 August 2026 – 07 September 2026

STUDENT CREDENTIALS

Haidar Raj Ali

Enrollment / Roll No.
25SCS1003004846

Program
B.Tech (CSE)

HOST ORGANIZATION
VirtualWorks Lab by Noivr

Candidate & Program Overview

Candidate Details

Student Name: HAIDAR RAJ ALI

Roll Number: 25SCS1003004846

Degree: B.Tech (Computer Science & Engineering)

Academic Batch: 2026-2027

University: IILM University, Greater Noida, U.P.

Internship Profile

Program Name: VirtualWorks Lab Internship

Specialization Domain: Data Analytics

Duration: 08 Aug 2026 – 07 Sep 2026

Internship ID: VWX-AUG26TOSEP26-834

Total Hours: 155 Hours

Organization Profile: VirtualWorks Lab

VirtualWorks Lab is an educational initiative by Noivrn. The supplied internship certificate verifies successful completion in the Data Analytics domain.

 Internship Period: 08 August 2026 – 07 September 2026.

 Total Engagement: 155 hours of internship work.

 Credential: Certificate of Completion + Performance Evaluation Report.

Problem Statement & Internship Context

The Analytics Challenge

The recorded internship tasks required working across data cleaning, dashboards, geospatial analysis, customer churn, and web traffic analytics.

The practical challenge was to transform datasets into reliable, interpretable analytical outputs and document the work clearly.

The Internship Scope

The five recorded project areas cover data preparation, visualization-oriented presentation, and analytical study of geographic, customer, and web activity data.

The supplied credential does not specify the software stack; exact tools can be added by the student before submission.

Core Internship Objectives

Data Preparation

Data Cleaning &
Structural Validation

Data Visualization

Interactive
Dashboard
Development

Analytical Applications

Geospatial •
Customer Churn •
Web Traffic

Performance &
Delivery
Problem Solving •
Documentation •
Timeliness

Technologies & Tools Used

Visualization

Interactive
dashboard-oriented
work

Exact tools/software:
Power BI & Tableau

Data Preparation

Data cleaning &
structural validation

Exact tools/software:
Microsoft Excel &
Phyton and Pandas

Analytics

Geospatial • Churn •
Web Traffic

Exact tools/software:
Phyton, Numpy &
Excel & SQL

Documentation

Project records and
evaluation evidence

Exact tools/software:
Microsoft
PowerPoint &
Microsoft Word

Data Analytics Workflow

-  Data Input: Source datasets / records.
-  Cleaning & Validation: Data quality and structural checks.
-  Analysis: Geospatial, churn and web traffic tasks.
-  Visualization: Interactive dashboard development.
-  Insights: Findings documented for academic evaluation.

Internship Task Portfolio (1–4)

Task Portfolio & Evaluation

Key Projects & Demonstrated Skills

- ✓ Interactive Dashboard Development: Completed as a recorded internship project (Grade A).
- ✓ Geospatial Data Analysis: Completed as a recorded internship project (Grade A).
- ✓ Customer Churn Analysis: Completed as a recorded internship project (Grade B).
- ✓ Web Traffic Analytics: Completed as a recorded internship project (Grade B).
- ✓ Data Cleaning & Structural Validation: Completed as a recorded internship project (Grade A).

Performance Evaluation & Verification

Verification Metric	Official Record
Internship ID	VWX-AUG26TOSEP26-834
Domain	Data Analytics
Duration	08 Aug 2026 – 07 Sep 2026
Total Hours	155 Hours
Final Score	92 / 100
Overall Grade	A (Excellent)

Certification & Official Verification

Thank You!
